

The first Bedminster Toilet Map actually appeared several years ago following a discussion at the Bedminster Older Peoples' Forum. The Forum looked at national research that showed that some people, and not just older ones, felt imprisoned in their homes. They need frequent access to a toilet and cannot be sure of finding one when they are out. **This is a widespread but invisible disability.** The map is one of the ways in which we want to empower people, making our community more welcoming to disabled people and the elderly. GBCP and the BBID are also looking at other ways of making the area more welcoming. For example, we want to make the area more accessible for people in wheelchairs, having partial sight etc.

Why did we make this map?

Welcome to Bedminster

This map has been commissioned by the Greater Bedminster Community Partnership (GBCP) and the Bedminster Business Improvement District (BBID).

GBCP includes around 100 organisations in the area. One of these is BBID with over 400 businesses.

We want people to enjoy the experience of being in Bedminster, whether that's for shopping, entertainment, visiting a park or just walking around.

Accessibility

All featured toilets are accessible from the pavement without having to go up any steps (except the 3 Lions pub and the gents at the Hen and Chicken where there are a couple of steps to climb). The toilets all have **baby changing facilities and a disabled toilet** (except the 3 Lions pub and the Rope Walk). You will find the names listed on the map. Information correct at the time of printing.

Key

-  Toilet in an establishment
-  Public toilet
-  Railway station

Thanks!

We would like to thank owners and managers of businesses that feature on our map.

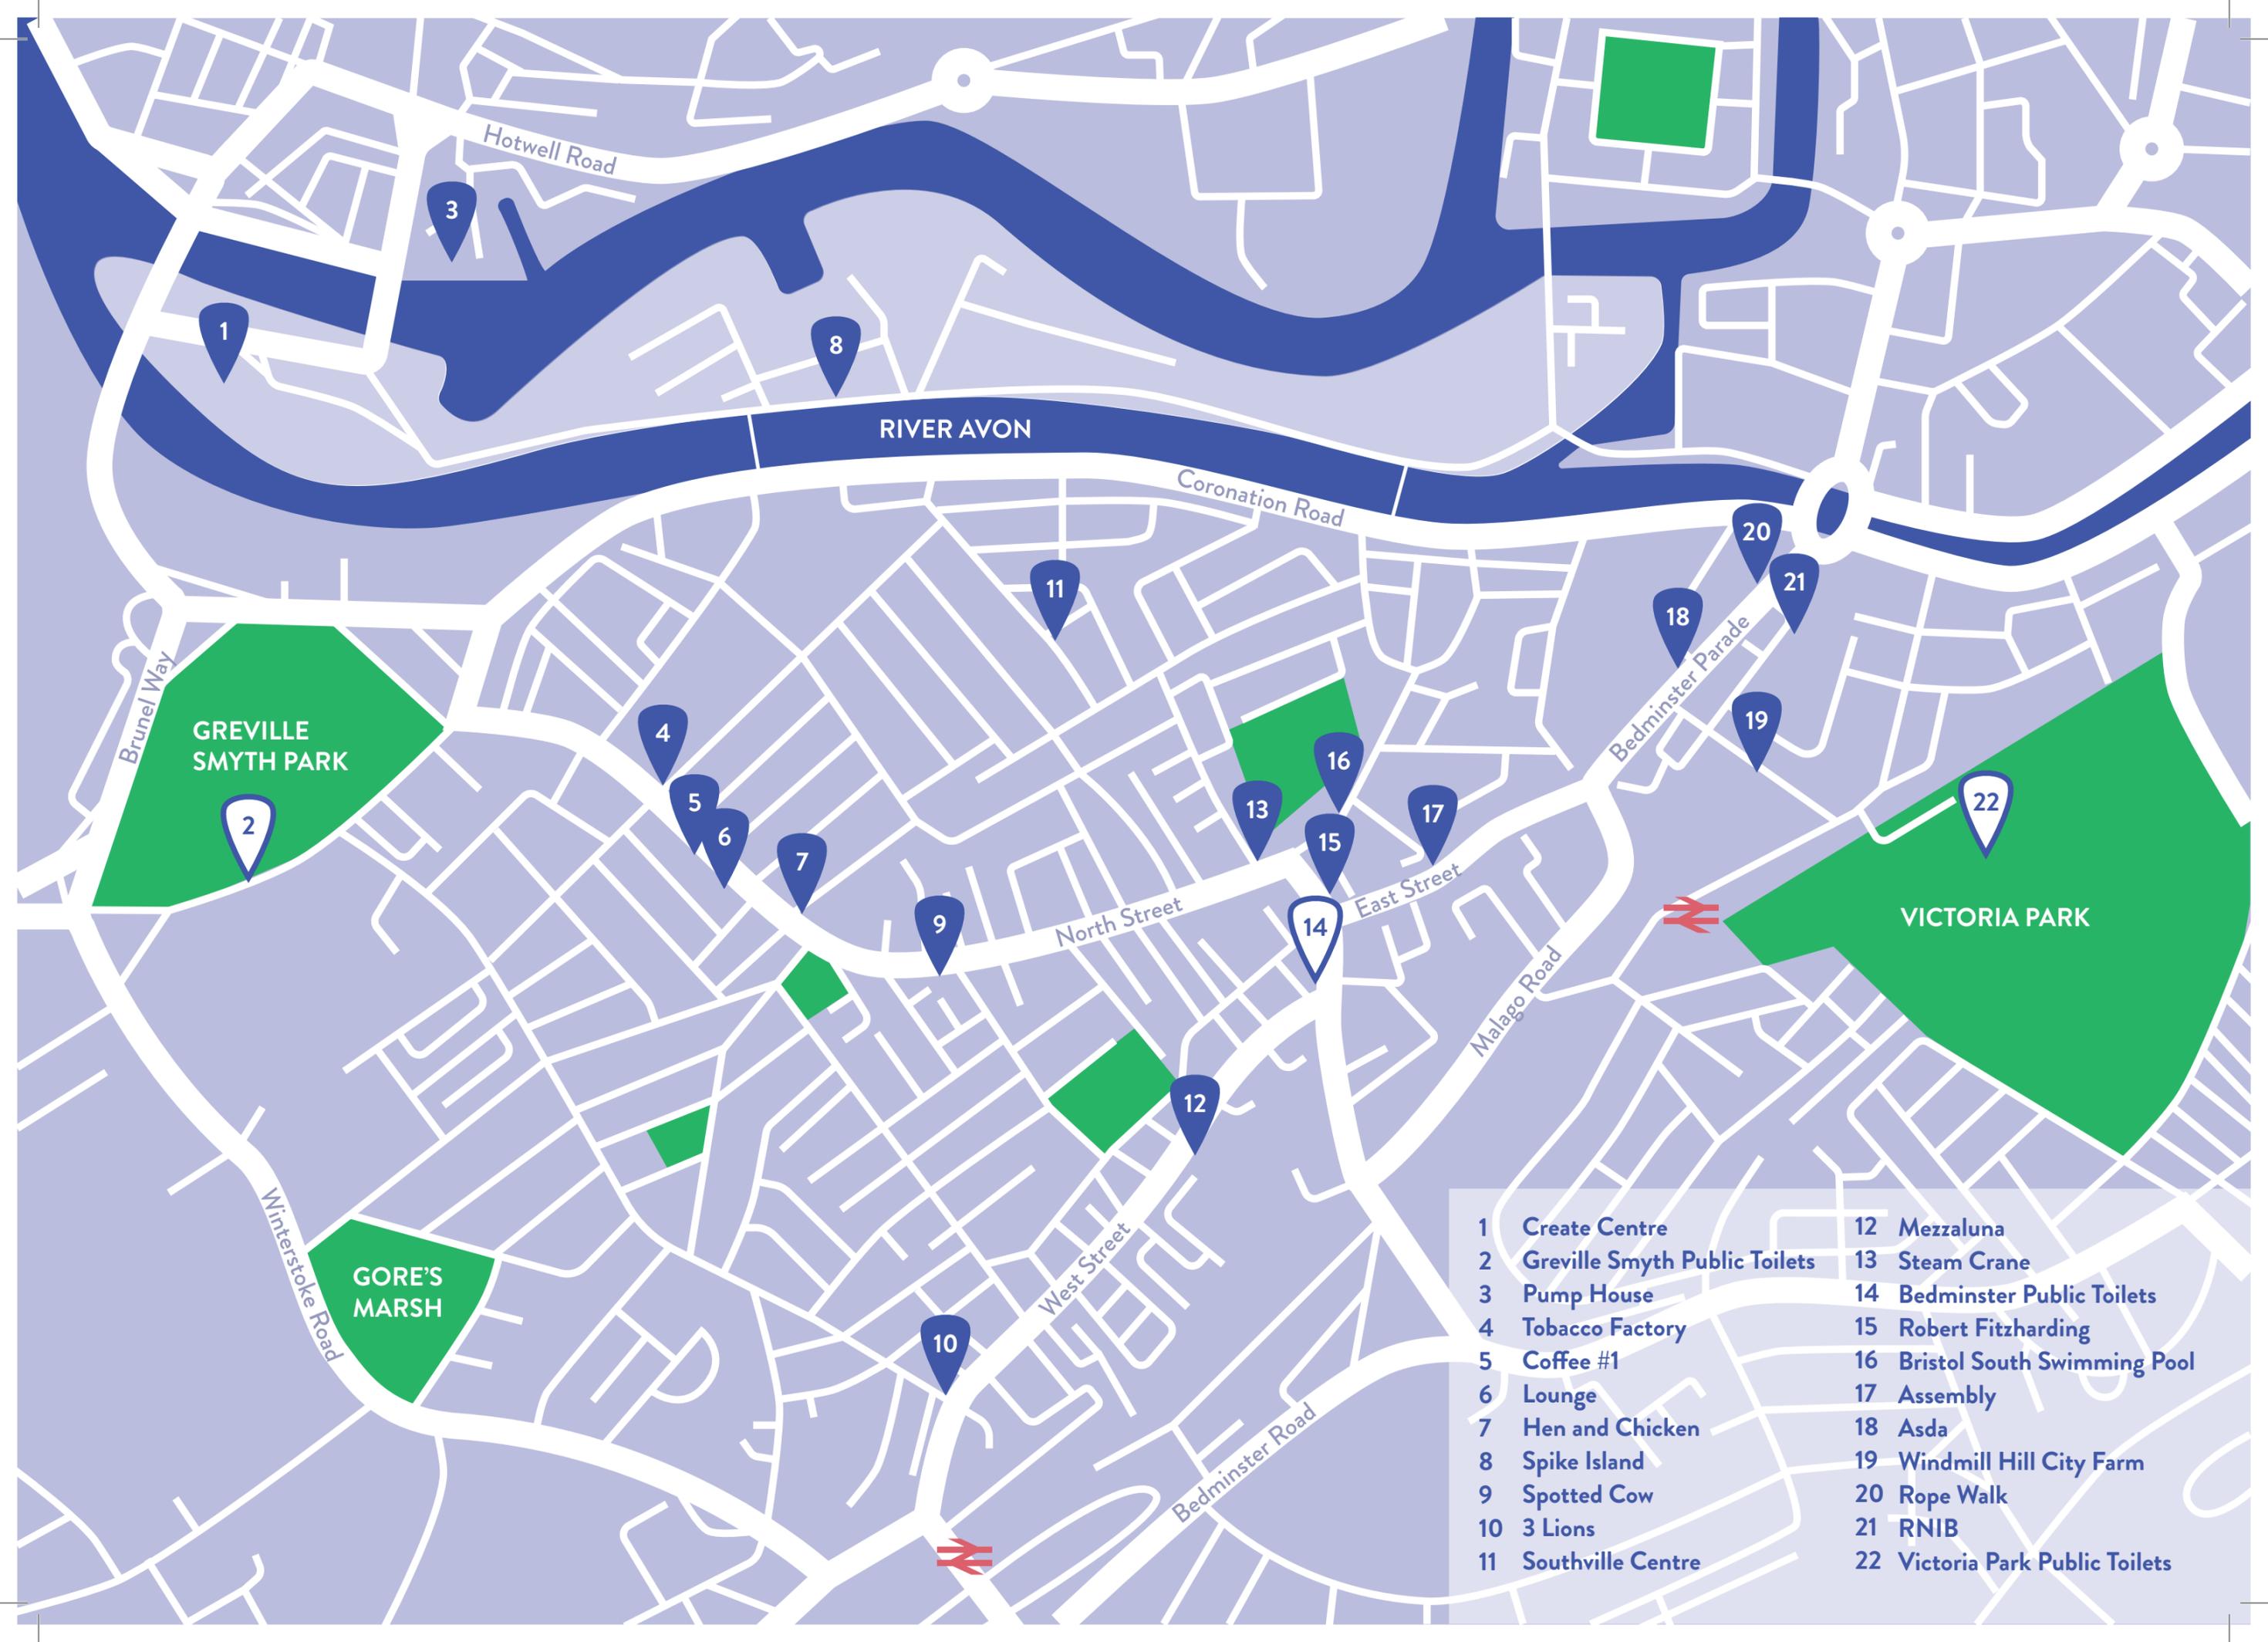

They have agreed that, when they are open, people can use their toilets even if they don't buy a cup of tea, glass of beer, tin of beans etc. After all, if they are not customers today, they may be tomorrow and they may also be helping the business next door.

Contains OS data © Crown copyright and database right (2017).

Thanks to graphic designer Tess Sieling, who put the map together in 2017.
