Biography

Busy streets, laughter, the sound of children playing – but what lies behind closed doors in our communities, especially for those in later life, living alone?

Alonely is a community theatre piece, using monologues based on research by members of Bristol Charity BS3 Community and the University of Bristol. First performed at Tobacco Factory Theatres in 2018. the piece has since toured to Somerset House, The Houses of Parliament and venues across the South West. Alonely aims to make the experiences of older people more visible as a way of encouraging dialogue between communities, professionals, academics and artists.

Press

"Presenting the research in this way has more impact as a drama and is more engaging," - Bristol 24/7

"I've seen it and I would say that the stories make you think. They reminded me of situations my relatives or people I know have been in. The stories were more real because of that. I would say that Alonely is well worth taking the time to see." - Link Age Network
